**(Specialized in All kind of Mechanical Electrical
Instrumentation works all over India) Since 2018**

Nigadi Pradhikaran Pune City, Pune 411044

“We Believe in Hard Work and Dedication with Smart Plan”.

About Us

“We Believe in Hard Work and Dedication with Smart Plan”.

“A dream does not become reality through magic; it takes sweat, determination, and hard work.”

We understand that it takes more than a qualified provider to win the customer's confidence, especially when it comes to complex or high-value projects. That is why, from the very beginning, our company has been built upon a strong foundation of integrity, honesty, safety, and quality.

We build trust-based, collaborative relationships with our clients and industry partners. This is what sets us apart and what helps us provide continuous customer satisfaction, win repeated business and establish long-term business connections.

We have Exclusive in-house design Team Mechanical as well as Electrical and Dedicate Project Management Team. Our solutions are fully synced with both your requirements and your goals – including technical, financial and commercial. We work very closely with you to ensure the right solutions, beneficial synergies and tight project coordination.

“We Believe in Hard Work and Dedication with Smart Plan”.

COMPANY DETAILS

Company Name	:	Suprime Industries
Office Address	:	Sr.No-18,Shivmanda Niwas,Shivganeshnagar,Dhawde wasti,Bhosari Pune 411039
Nature of Business	:	Mechanical &Electrical Contractors
Name of Director	:	Mr. Nilesh Karanje
Year of Establishment	:	2018
Field of Activities	:	Mechanical Electrical Instrumentation
Our Bankers	:	Cotak Mahindra Bank Pune
Pan no.	:	FFIPK7984
GST Registration No.	:	27FFIPK7984B1Z1
Employee provident Fund No.	:	Applicable
Shopact No.	:	21310000315367169
UDYAM Ragistration No:	:	UDYAM-MH-26-0121010

Vision

To be the most preferred power control solution provider through a professionally managed, dynamic, value based organization with committed to total customer satisfaction with high quality standards.

Mission

To satisfy customer by supplying high quality, compatible and reliable products & services and set the standard for excellence for the industry and continually reinforce our standing as industry leader.

We Stop At Nothing

Nothing can stop us to complete project with best efforts.

We Take It Step-By-Step

We decide our goal, we plan for it, we take efforts for it and we achieve the goal.

We Keep It Simple

We keep our work execution simple.

We Love To Explore

We love to explore all our skills to make project best.

“We Believe in Hard Work and Dedication with Smart Plan”.

Services Overview

- **STORAGE TANKS**
- **STORAGE TANKS REPAIRS AND MAINTENANCE**
- **MECHANICAL AND PIPING**
- **STEEL FABRICATION AND ERECTION**
- **BOILERS REFURBISHMENT AND OVERHAUL**
- **PRESSURE VESSEL REPAIRS AND ALTERATION**
- **CONSTRUCTION**
- **FABRICATION**
- **SURFACE PREPARATION AND CLEANING**
- **ELECTRICAL AND INSTRUMENTATION**
- **FIRE PROTECTION SYSTEMS**
- **CERTIFIED AND QUALIFIED MANPOWER**
- **LINE AUTOMATION**
- **JIGS & FIXTURES**

❖ **STORAGE TANKS**

We are specialists in storage tanks for commercial, industrial and residential use. Based in India we install, maintain, inspect and dispose of storage tanks as well as dealing with environmental spills and tank repairs. We undertake all work under strict Health & Safety conditions, with full Method Statements and Risk Assessments submitted before we begin, so you know you're in safe hands.

Our capabilities cover a full spectrum of services associated with the atmospheric and pressurized tanks for liquid, gas and bulk storage, and turnkey terminals. We serve our customers across the India with fast delivery of efficient storage solutions. We routinely employ discovery methods that decrease costs on materials to meet the budget requirements without ever compromising safety or quality.

Our professional staff has proven expertise in all areas of the tank and specialty vessel installations and modifications.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **STORAGE TANKS REPAIRS AND MAINTENANCE**

Our tank repair and maintenance services range in scope from a single tank to entire tank farms. We offer storage tank repairs for the internal and external rehab of tank shells, roofs, and bottoms. Services are often executed through alliance arrangements to provide our clients with a single source for all of their tank repair and maintenance needs.

We can extend the life and value of your facilities with complete maintenance, modification and repair services, covering:

- Tank cleaning
- Double bottoms
- Leak detection systems
- Floating and fixed roofs
- Floating roof seals
- Walkway platforms and handrails
- Nozzles and man ways
- Floating suction, diffuser, sumps and heat coils
- Gauge systems
- Fire protection
- Tank air-raising and relocation services
- Earthquake support, inspection and repair services

❖ **MECHANICAL AND PIPING**

Our skilled field personnel have proven experience in the engineering, construction, and fabrication of specialized mechanical and piping systems for institutional and commercial construction. We bring quality, efficiency and comprehensive set of services encompassing projects pre-assembly, design, procurement, project management, and scheduling.

We understand the challenges faced by today's industry: the need to reduce operational costs, maximize uptime and optimize efficiency. We ensure the highest level of asset integrity and reliability to our clients. We create a solid plan detailing all aspects and risks associated with a particular project to assure reliable production, quick turn-around, and safety.

All fabrication and installation jobs will require regularly scheduled maintenance for quality assurance. Our team of skilled craftsmen and inspectors can help assess the quality and integrity of the structural pieces throughout their use.

Our project management teams and craftsmen are fully dedicated to meeting your schedule and budget with a focus on safety and quality.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **STEEL FABRICATION AND ERECTION**

We are an eminent organization, which is engaged in offering an incomparable service of Fabrication & Erection. Customers can avail Structural Engineering Works, Structural Steel Fabrication and Erection and Heavy Steel Structures service from us. We render offered services in complete compliance with the international quality standards. Further, customers can avail these services from highly affordable prices.

We can offer steel erectors on an installation only basis or supply a complete package of steel fabricators and erectors on a turnkey basis.

With firm commitment to quality, we are offering a reliable set of Structural Steel Fabrication and Erection services. In addition to this, our experienced professionals execute offered fabrication and erection services keeping client's requirements in mind. We assure the timely execution of all the undertaken projects.

Features:

- Optimum space utilization
- Promptness
- Consistency

❖ **BOILERS REFURBISHMENT AND OVERHAUL**

Working with us ensures that your industrial boiler is safe, reliable and economical. Our services extend your boilers life and reduce emergency call outs for breakdowns. Our qualified repair crew can rapidly and efficiently remedy any boiler issues, whether your systems requires minor repairs or emergency generator tube bank replacements.

❖ **PRESSURE VESSEL REPAIRS AND ALTERATION**

We perform pressure vessel, heat exchanger and boiler maintenance and alteration services for a variety of industrial market sectors including oil and gas refining, chemical processing, petrochemical refining and power plants.

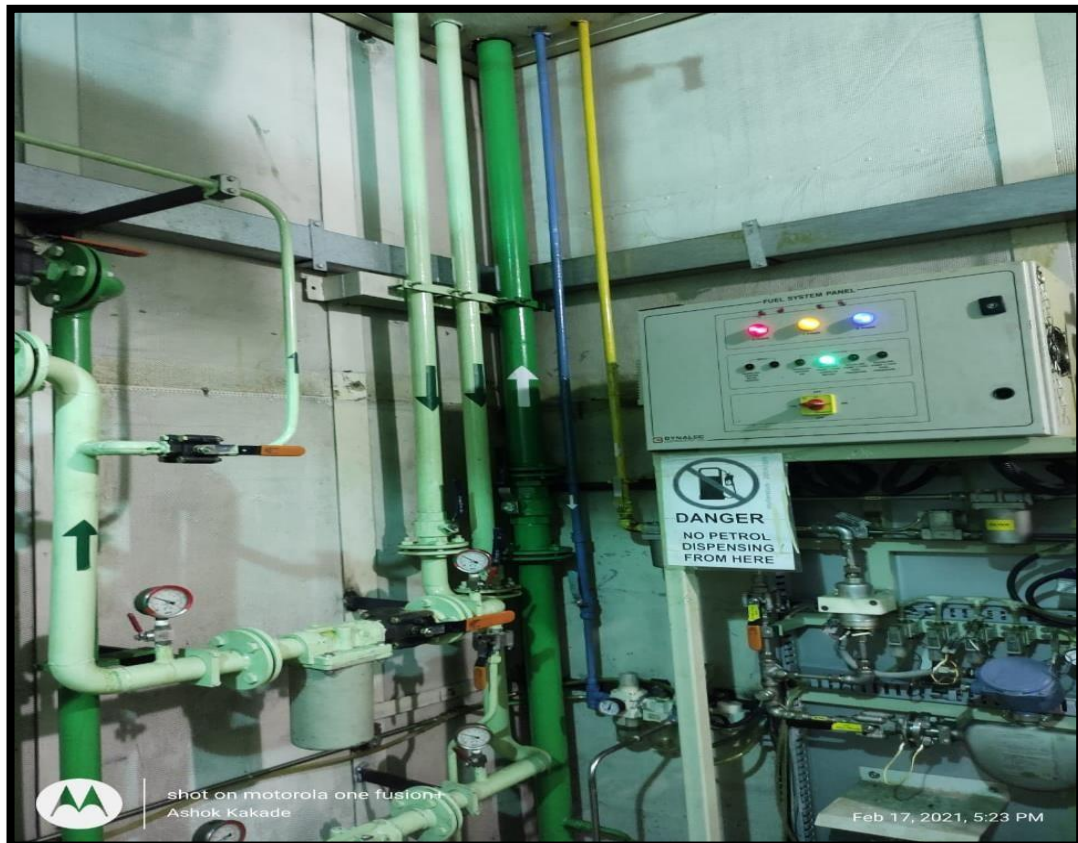

Our skilled craftsman and highly experienced certified welders are capable of restoring damaged pressure vessels and boiler components to proper working and ASME code condition. We repair stainless steel pressure vessels, carbon steel pressure vessels, alloy steel pressure vessels and pressure vessels fabricated from heavy steel plate materials. We also offer pressure vessel inspection and pressure vessel testing services.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ CONSTRUCTION

The flexibility to mobilize the right people to deliver unique construction solutions; an unwavering focus on delivering value to your business bottom line; and the capability to leverage innovation to meet emerging challenges and keep you at the fore.

Whether you are in the Buildings, Civil, Industrial or Special Projects market, partnering with us means you're gaining a proven, reliable and trusted full-service

Every project has unique requirements and must maintain a schedule, minimize safety risks for personnel, and keep costs in-line with budget. Technical expertise in construction management support is key to helping make this happen. Projects benefit from the added value of local knowledge as well as overall expert services in every stage of the construction timeline. We can help deliver the safe, successful completion of your construction project.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **Fabrication**

We offer industrial fabrications service as per your drawings/specifications, for a host of components, equipment and machines used in various industries as per the drawings provided by the clients. Our adept technicians with the help of engineers deliver tailor-made products in conformation with the designs made available by the clients.

We bring the qualified manpower, extensive knowledge and professional project management all of which allow us to maximize the cost effectiveness of our custom fabrication solutions.

Other details:

- Turn-key execution of system for extraction of corrosive fumes and gases
- High Durability
- High separation efficiencies of 1-micron particulate and gaseous emissions are achievable
- Very Low Maintenance
- Provide hygienic working environment
- Strong Resistance to Adverse Effects
- Customized process equipment for metal finishing industries etc.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **SURFACE PREPARATION AND CLEANING**

Today's businesses move fast and are in production 24/7 which means their demands need to be met rapidly and efficiently. Painting of storage and industrial facilities requires fast performance and coordinated schedules. We plan our services around manufacturers, and business's down time, to assure interruptions in normal operations are minimal to none. Many of our services are developed specifically for execution in high-traffic, actively operating environments depending on the client's requirements. Our surface preparation and cleaning services encompass painting, renovation repair, blasting, coating, clean up related to smoke damage, removal of rust and oxidation, preparation of pipes and tanks and much more. We decontaminate all industrial, commercial and residential surfaces, machinery and equipment with a full commitment to safety.

- **MANUFACTURING / WAREHOUSES**

We offer full-scope of surface preparation and cleaning for the equipment, interior or exterior of your warehouse or manufacturing, including thin film intumescent coatings on steel for fire prevention, machinery refinishing, corrosion resistant finishing, and towers and storage tanks upkeep.

- **RESIDENTIAL / COMMERCIAL**

From painting to renovation of the interior or exterior of the commercial and residential structures we implement the same safeguards and operational protocols as we do in all our industrial projects. We deliver fast turnaround, quality workmanship and commitment to safety standards.

❖ **ELECTRICAL AND INSTRUMENTATION**

We offer an answer to every question in the field of E&I across industrial markets. Our services include (maintenance) engineering, design and construction of skids, measuring & control, automation (PLC/SCADA), high voltage techniques, lighting, security and management systems.

We offer a complete range of services in the field of electrical engineering and instrumentation (E&I). From basic to detailed engineering, from new construction to renovation and maintenance optimization.

Power, Controls & Communications

- High & Low Voltage Wiring Installation & Testing
- Medium Voltage Cable Preparation & Testing
- Cable Tray & Conduit Installation
- Electrical Equipment Installation
- MCC's/Switchgear
- Transformers
- Power & Lighting Panels
- Heat Tracing Installation
- Grounding
- Lighting and Lighting Protection
- Control Panel, DCS & PLC Installation
- Fiber Optic Patch Panels

Instrument Installation & Technical Services

- Instrument Installation
- Calibration
- Loop Check
- Start-Up Assistance

“We Believe in Hard Work and Dedication with Smart Plan”.

- UPS Installation & Testing
- Tubing Installation & Testing
- Analyzer Installation & Testing

❖ **FIRE PROTECTION SYSTEMS**

We specialize in a custom design, fabrication, installation, and support of fire protection systems, including sprinkler systems in the commercial and industrial markets. Our systems and services are backed by our experienced staff, innovation, and time-tested quality work.

We handle all phases of fire protection, including pre-planning, engineering and design, coordination, project management, and installation. We also specialize in testing, inspection, repair and maintenance of these systems to assure continued proper functioning.

We provide high-performance fire safety systems giving you the competitive edge in today's industry. Entrust your facility's fire protection system design, contractor services, and suppression systems to us, and let our qualified personnel assist you throughout your project.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **CERTIFIED AND QUALIFIED MANPOWER**

We can connect your project with the industry's highest quality staffing services and manpower support whether it requires technical experts, skilled workers or labourers.

We serve both large and small organizations across all industry sectors. All our manpower strictly adheres to all industry codes of safety and all requirements of the industry.

Whether it is on or above ground pipeline, underground pipeline, structural steel platforms, plant maintenance or any other project, we can assemble a multi-skilled team that is perfectly suited for the scope of work.

We have 28 enthusiastic people team with us. We can arrange more as per requirement.

Engineers: - 5 Engineers

Electrician: - 5 Electricians

Welder: - 5 Welders

Fitter: - 5 Fitters

Helper: - 8 Helpers

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **LINE AUTOMATION**

- Assembly Lines
- Conveyors
- Robotic Inspection
- Vision Poka-Yoke
- Pick & Place
- Gantry systems
- Auto Assembly Stations
- Trolleys & structures

Assembly Lines:

An assembly line is a manufacturing process (often called a progressive assembly) in which parts (usually interchangeable parts) are added as the semi-finished assembly moves from workstation to workstation where the parts are added in sequence until the final assembly is produced.

Conveyors:

Conveyor Systems are mechanical devices or assemblies that transport material with minimal effort. While there are many different kinds of conveyor systems, they usually consist of a frame that supports either rollers, wheels, or a belt, upon which materials move from one place to another.

Robotic Inspection:

Inspection robots are mobile service robots with advanced vision sensors, typically used for the inspection of critical and high-value infrastructure. Inspection robots are either semi-autonomous, where they've been taught established paths, or fully autonomous, able to navigate themselves.

Vision Poka-Yoke:

A poka-yoke is a mechanism that works with Jidoka to either prevent a mistake or make a mistake obvious at a glance; for example, an operator who creates customized assemblies from small bins in front of him: One approach would be to give the operator a list of parts to assemble by taking them as needed from the bin.

Pick & Place:

Pick and place robots are commonly used in modern manufacturing environments. Pick and place automation speeds up the process of picking up parts or items and placing them in other locations. Automating this process helps to increase production rates. Pick and place robots handle repetitive tasks while freeing up human workers to focus on more complex work.

Gantry systems:

A motion-centric system designed for multi-axis operation with an overhead bridge is regularly called Gantry System. You will find them in applications related to Scanning, Digital Printing, Electronics Assembly, AOI (Automatic Optical Inspection) and Automation

Auto Assembly Stations:

In an assembly line, car assembly is split between several stations, all working simultaneously. When a station is finished with a car, it passes it on to the next. By having three stations, three cars can be operated on at the same time, each at a different stage of assembly.

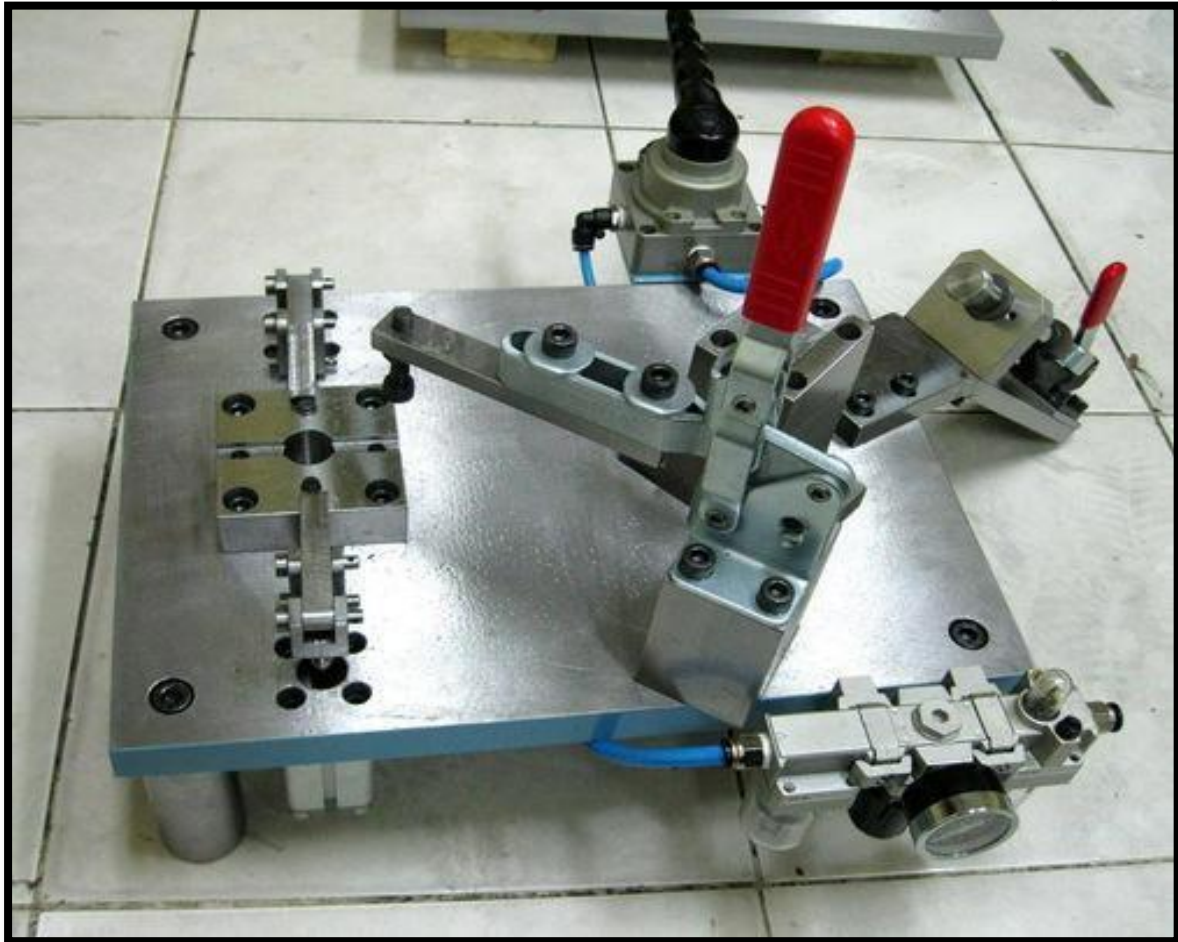

Trolleys & structures:

Trolleys are widely used to transport machine components from one place to another. We provide the customized trolleys as per customer requirement.

We also provide the complete solution on structural works.

❖ **JIGS & FIXTURES**

- Welding fixtures
- Inspection Jigs
- Revising Jigs
- Complete Turnkey solution
- For manual welding line

❖ **TOOLS AND TACKLES**

“We don't wish it were easier. We wish we were better.”

*These are our great working partners because we don't compromise
with quality standards.*

➤ **WELDING MACHINE (4-Qty)**

- DC TIG Welding Machine

Model: -TIG 200A TIG 250A

Rated Input Voltage (V): -220±15% 415±15%

Rated Power at Max. Current (KVA) 9.6/6.29.5/6.3

- Inverter MIG/MAG (Co2) Welding Machine

Max Rated Input Power in KVA 8 15

Open Circuit Voltage 15 to 34 16 to 48

Welding Current Range 70 to 250 A 70 to 400 A

➤ **CUT OFF MACHINE**

➤ **GRINDER**

➤ **ALL SPANNER SET RIGHT ANGLE**

➤ **WELTRONIX MACHINE FOR MS WELDING**

➤ **WELDING MACHINE**

➤ **DRILLING MACHINE**

➤ **SCREWDRIVER SET**

➤ **MULTIFUNCTIONAL SOCKET SET**

➤ **DIE GRINDER KIT & DIY SCCESSORY KIT**

➤ **HSS BIT SET FOR DRILLING WOOD, STEEL, PLASTIC AND WALL**

“We Believe in Hard Work and Dedication with Smart Plan”.

- **TOOL KIT SET FOR SEMI-PROFESSIONAL, SEMI-PROFESSIONAL**
- **IBELL IBL TD13-100, 650W PROFESSIONAL TOOL KIT**
- **SCREW DRIVER SET**
- **HAND TOOL KIT**
- **SPANNER SET**
- **DRILL BIT SET**
- **TUBING SET LIKE THAT**
- **Bender 1/2",1/3",3/4"**
- **Cutter**

CLINETS

“Service with a Smile”

Our Partners Believe in Us

We believe our diversity makes us stronger, smarter, and more innovative, helping us better serve the needs of our clients, our people, and our communities.

Ishwari Electricals Pvt. Ltd.

We are always looking ahead to anticipate what next, and our unique innovation architecture enables us to take an innovation-led approach to help our clients invent the future.

“We Believe in Hard Work and Dedication with Smart Plan”.

❖ **SUMMARY OF OUR STRENGTH**

- EXCELLENT HUMAN RESOURCE TO WORK WITH.
- EXCELLENT AND FULLY DEDICATED CUSTOMER SERVICE.
- BEST INTEGRATION EXPERTISE AVAILABLE.
- CAD SPECILIST TO HANDLE CRITICAL PROJECT.
- PROVEN QUALITY ASSURANCE PROGRAM.
- TECHNICALLY SOUND STAFF TO HANDLE MAJOR PROJECTS.
- WORKING ROUND THE CLOCK IN URGENCY.
- APPETITE FOR LEARNING, CREATING ITS OWN BENCHMARK.
- EFFICIENCY TO UNDERTAKE BOTH SMALL AND LARGE SCALE PROJECTS.
